HERE IS WHAT IS HAPPENING THIS WEEK...

Updates

Math

Review

- This week we continue our work on fractions and finish up the year with our end of the year assessment.
- This will be our last week of practice with our math facts. Please remember to review periodically over the summer.

Language Arts

- We will talk about several books revolving around simple machines.
- We will also continue to assess our reading fluency through varied lessons and oral readings.

Word Study

- We will review the word patterns that we have learned throughout the year.

Handwriting

- We will review all of the letters we have learned so far and complete all of our writing work in cursive.

Website

Please visit this website often for information, updates, photos and much more

WHAT'S NEW

What's new in our unit?

This week we will complete our invention and discovery unit! We will continue our work with simple machines by researching various examples in our rooms and building some of our own using the dacta lego kits. We will continue to review simple machines using the Science Court curriculum that the students are really enjoying.

On Thursday, we will have our invention convention as a way to look at the entire third grades inventions and the thought process that each student used to build their invention.

What's making us think?

Fact or Fiction question of the week:

Fact or Fiction:

List three famous Wisconsin inventors and their inventions.

Turn in your answer to your teacher by Friday and be sure to include your source.
